

Interventions at St James' Infant and Nursery School

Read, Write, Inc - One to one support

How it works

At St James' we use the Ruth Miskin reading and phonics programme Read, Write, Inc. Occasionally, pupils will need extra support with this and intervention is key. The programme offers a 'catch up' one to one programme which staff are able to 'dip' into, to teach any gaps in phonic knowledge and support children who need an extra 'boost'.

The one to one programme is delivered by Senior Teaching Assistants and lasts as long as a child may need it. This may be a permanent measure or simply a week to catch up on specific sounds.

Planning and resources are provided, and lessons are taught straight from the accompanying handbook.

Children are identified for this programme through pupil progress meetings and through RWI half termly assessments.
