

Interventions at St James' Infant and Nursery School

Talk Boost

What is Talk Boost?

Talk Boost KS1 is a targeted intervention for 4-7 year old children with language that is delayed, including children in Reception classes. The programme is delivered in primary schools by classroom teachers and teaching assistants and provides a structured programme that boosts children's progress in language and communication by an average of 9 - 18 months after a ten week intervention.

Children who are selected to take part in the intervention will attend three sessions per week in small groups, each lasting 30-40 minutes delivered by the teaching assistant. The sessions include activities that cover the key elements of language: Attention and Listening, Vocabulary, Building Sentences, Telling Stories and Conversations. In addition, the teacher will run a weekly whole-class activity and there are activities that can be practiced at home.

Further information can be found on the leaflet attached.
